

NAUTICAL PUBLICATIONS

WORLD PORT INDEX

The World Port Index (Pub 150) contains the location and physical characteristics of, and the facilities and services offered by major ports and terminals world-wide (approximately 3700 entries), in a tabular format. Entries are organized geographically, in accordance with the diagrams located in the front of the publication.

The World Port Index publication can be downloaded in the following formats:

- Adobe PDF document file
- Microsoft Access database
- ESRI Arc shapefile

Specific World Port Index entries can be retrieved from the on-line database using the query form below.

WWW - WPI WEB APPLICATION

World Port Index now offers an official beta version of enhanced data in four formats: csv, json, shapefile and file geodatabase. An **Explanation of Data Fields** (/api/publications/download?key=16920959/SFH00000/WPI_Explanation_of_Data_Fields.pdf&type=view) document is also provided for reference. Users who are interested in accessing these beta versions are encouraged to download file(s) below and provide any comments or feedback to NGA at MarHelp@nga.mil (<mailto:Marhelp@nga.mil>).

Contributors who would like to submit information for inclusion in the World Port Index are encouraged to visit the World Port Index (WPI) Contributors ArcGIS Online page. In the ArcGIS Online platform, users can view and query data in the web application but not download it. A download of the full WPI content is provided below. The web application is **best viewed in Google Chrome**.

UpdatedPub150.csv (</api/publications/download?type=view&key=16920959/SFH00000/UpdatedPub150.csv>) provides a full listing of updated WPI content in csv format.
