

HOW HAPPY ARE WE?

World Happiness Report is a landmark survey of the state of global happiness that ranks 156 countries by how happy their citizens perceive themselves to be. The 2020 Report ranks countries around the world by their subjective well-being and digs more deeply into how these variables below affect the happiness. The rankings are based on answers to the main life evaluation question asked in the World Gallup Poll (Cantril Ladder question) - Imagine your current position on a ladder with steps numbered from 0 to 10 with 10 being the best possible life.

The **Jitter Plot** shows happiness score of each country by region (Each **Color** indicates a region)

The **Bar Graph** represents the contribution of each variable to the happiness score by region.
