| 2020                       | Bulgaria                  | 15.2 | Nov 24 – Dec<br>23, 2020      | 1,007                   | 2.08                          | 4.4                             | Landline and Mobile<br>Telephone | Bulgarian                          |                              |  |
| 2020                       | Burkina Faso              | 15.2 | Nov 12 – Dec<br>15, 2020      | 1,002                   | 2.61                          | 5.0                             | Mobile Telephone                 | Dioula, French, Fulfulde,<br>Moore |                              |  |

The design effect calculation reflects the weights and does not incorporate the intraclass correlation coefficients. Design effect calculation: n\*(sum of squared weights)/[(sum of weights)\*/(sum of weights)]

b Margin of error is calculated around a proportion at the 95% confidence level. The maximum margin of error was calculated assuming a reported percentage of 50% and takes into account the design effect. Margin of error calculation: √(0.25/N)\*1.96\*√(DE)

Areas with disproportionately high number of interviews in the sample.

Reasons for these differences could include household sampling, respondent sampling in the household, errors in self-reports of actual attainment, or dated population information.

| Cambodia              | 15.2  | Nov 21 – Dec<br>18, 2020   | 1,000  | 2.38   | 4.8   | Mobile Telephone  | Khmer   |  |
